

Hot Tug

EN

As you slowly glide through the landscape, it's as if a gentle breeze guides you. Basking in the warm, steaming water, you feel at one with your surroundings and time seems to stand still.

You can step out of the HotTug to take a dip in the fresh water. Brrrr, the refreshing cold tingles on your skin. Then gently ease yourself back into the warm water.

You had imagined what it would be like to sail in a HotTug, but this exceeds expectations. Life doesn't get much better than this.
