

HotTug

HIRE ADDRESS
Lichtschip V11, Tinto
Wijnhaven opposite 101,
3011WN Rotterdam
T +31(0)10 840 47 30

instructions & rules

You can have a great time in the HotTug, but there are a few rules and regulations that you need to adhere to for your own safety and the safety of others.

- 1.** The zone where you can sail is marked on the accompanying map. Sailing the HotTug outside this zone is not only prohibited, it can also be dangerous due to waves and currents. Some parts of the bridges are prohibited, see the traffic sign on the map. A bridge can also be blocked (working on the bridge or because a large ship is arriving), this is visible by 'double red', a traffic light with two red lights above each other.
- 2.** There are 7 bridges in the sailing zone. They all have different heights. Make sure at each bridge that the stove pipe can pass underneath. The HotTug has a 'lidded' pipe, please fold the lidded pipe a few meters in advance, if you don't you will damage the pipe!
- 3.** Commercial ships and water taxis also sail in the Leuvenhaven, so please be alert to other traffic on the water.
- 4.** Changes in the tide can affect the currents in the harbour. The places where the current can be strong are marked on the map.
- 5.** The HotTug stove is wood-fired. The parts above the water can get very hot so make sure you don't touch them!
- 7.** The HotTug has a electric motor. It's best to sail at half speed, otherwise you will use up the capacity very quickly and you won't come 'home'. Use the full capacity only when you need to manoeuvre the craft or in situations where it is really necessary. If you sail 20 / 30 Amps max you will come home and it's easier to steer.
- 8.** Sailing in the HotTug is a fun and memorable experience. However, it should also be fun for our 'neighbours' - this is key if it is to remain available for future renters. So please no loud music, no yelling and screaming and keep your (bathing) clothes on.
- 8.** Of course, there is nothing wrong with enjoying a little refreshment on board the warm HotTug, but watch your alcohol consumption. Like car drivers, the skipper may have only 1 unit, but it is best to drink no alcohol at all. Remember, the skipper is responsible for the passengers and for getting them home safely.

In case of a complaint and / or violation of the above rules, we will keep your entire deposit of € 500 (per HotTug).

Follow these rules and you will have an unforgettable time in the HotTug!
